## 7 Years of Impactful Partnership

7.7 Lakh Children Impacted

# 7 Years of Partnership

## Solving an Unsolved problem in Uttarakhand

It was 2015, when we asked ourselves – how can we transform learning outcomes in 12,500 Government schools in Uttarakhand where nationally 4 out of 5 children in grade 5 could not read grade 2 text and 8 out of 10 children could not solve previous grade questions despite doubling of investment in education over the last decade.

Samagra Shiksha (earlier known as Sarva Shiksha Abhiyan) and Sampark Foundation entered in a long-term strategic partnership with a belief that by leveraging design thinking we could build innovative solutions that would bring excitement back into the classroom.

This partnership led to **the beginning of a change** across the primary schools of Uttarakhand, however the road was long and hard.

4/5

Children in Grade 5 could not read Grade 2 Text nationally

8/10

Children could not solve previous Grade question nationally

# 7 Years of Partnership

**First**, we introduced the innovative Sampark Smart Shala Math and English FLN Kits to help teachers teach math from concrete to abstract and English through Listening and Speaking before Reading and Writing. These kits included innovative manipulatives, board games and an audio box with a voice mascot called Sampark Didi, who brought the class to life with songs and music to make learning a joyful experience.

**Second**, we introduced Sampark Smart Shala mobile app for teachers with lesson plans, mock teaching videos and question banks mapped to Uttarakhand Textbooks to help teachers teach in the right sequence and in the right way. Today 17,374 teachers are on this platform viewing resources that have made teaching and learning significantly easier.

**Third**, based on the popular KBC format, we brought gamified AI-driven assessment called Sampark Didi Ke Sawaal to the classroom. This innovation took away the fear of exams and made assessments fun.

And finally, the **fourth** innovation was an AI-driven Speak English program where all Uttarakhand textbooks were animated with a unique button for the child to record and test their pronunciations. This innovation had a significant impact on enhancing teachers' ability to teach English and a child's ability to speak and comprehend English.

# 7 Years of Partnership

All these 4 innovations were wrapped around extensive teacher training at every block level and monitoring at the school level by our Sparks and Samagra Shiksha/Sarva Shiksha Abhiyan Team.

This has helped us achieve up to 33% increase in learning outcomes in Uttarakhand government schools as per independent assessment by Feedback Advisory.

We have touched lives of 7.7 Lakh children and will continue exploring new ideas, innovations, and new ways to ensure that no child is ever left behind – because we all at Samagra Shiksha/Sarva Shiksha Abhiyan and Sampark Foundation care!

Impact Created since 2015 by Samagra Shiksha/Sarva Shiksha Abhiyan & Sampark:

**12,538**  
Schools Covered

**67,774**  
Teachers Trained

**7.7 Lakh**  
Children Impacted

## Innovation Timeline

# Innovation Timeline

**Sampark Smart Shala Math Program** was introduced in Uttarakhand to help teachers teach Math from concrete to abstract.

**Sampark Smart Shala English Program** was introduced in Uttarakhand to help teachers teach English through Listening and Speaking before Reading and Writing.

**Sampark Smart Shala Mobile App** was introduced to help teachers teach in the right sequence and in the right way and make teaching and learning significantly easier.

**Speak English** was introduced to encourage active learning of English language and help develop listening & comprehension skills among children, parents and teachers.

**Gamified Assessment** was introduced to take away a child's fear of exams and make assessments fun. The AI-based assessment module also helped identify learning gaps.

03

7 Years of  
Partnership  
in 5 steps

# 7 Years of Partnership in 5 steps

## 7.7 Lakh Children and Counting

For innovations to trigger change, especially when it involves lakhs of children in government schools, it needs to find a mode of execution that works with the entire system and within the system. Without execution at scale, long-term change is not likely to happen. Sampark's Design Thinking innovation Centre produced a 5-step model of change to bring about state-wide transformation in learning outcomes by implementing the Sampark Smart Shala (SSS) program.

Samagra Shiksha/Sarva Shiksha Abhiyan supported us in implementing this 5-step model of change and together we have been able to reach and transform learning outcomes of as many as 7.7 Lakh children studying in the government primary schools in Uttarakhand since 2015.

First  
**PARTNERED**  
with the  
Government

Signed MoU with the Government of Uttarakhand to rollout Sampark Smart Shala™ in 12,500 schools across 13 Districts.

Next  
**PROVIDED**  
Innovative  
Manipulatives

47,528 English and Math Kits were distributed in the state to make learning a joyful experience.

And  
**TECH-ENABLED**  
the teachers

17,374 teachers now use the Sampark Smart Shala™ mobile app, Gamified Assessment and Speak English program to teach children in the right sequence and the right way.

## SAMPARK SMART SHALA™

A 5-step model for change we followed to bring about transformation in Uttarakhand:

Finally  
**MONITORED**  
learning  
outcomes

7.7 Lakh Children monitored using Independent Assessment Partners - Feedback Advisory.

Then  
**TRAINED**  
teachers in blocks  
or villages

67,774 teachers were trained to use technology and engage children in effective learning.

# 1. Partnered with the Government of Uttarakhand

Impact – Achieved alignment of all education initiatives in the state.

# Partnered with the Government of UK

Change at scale is impossible unless we work with the government, within their opportunities and constraints, to drive significant gains in learning outcomes. Since 2015, we at Sampark, along with Samagra Shiksha (earlier known as Sarva Shiksha Abhiyan), have been closely working to drive significant gains in learning outcomes. The basis of our collaboration was a non-financial long-term MoU with the state government to impact 4.72 lakh school children in 12,500 schools across 13 districts of Uttarakhand, namely Dehradun, Haridwar, Chamoli, Rudraprayag, Tehri Garhwal, Uttarkashi, Pauri Garhwal, Almora, Nainital, Pithoragarh, U S Nagar, Bageshwar and Champawat.

Under the partnership with the state government, both the parties took up separate responsibilities to make the program a success-

**Signed MoU with the Government of Uttarakhand to roll out Sampark Smart Shala program in 12,500 schools**

"I thank Mr. Vineet Nayar for his continued support to the state. We extend all support needed to make it happen."

Shri Trivendra Singh Rawat,  
Former Chief Minister,  
Uttarakhand

# Partnered with the Government of UK

## Sampark Foundation's & Samagra Shiksha/Sarva Shiksha Abhiyan's Responsibilities

- Investments made in the transformative program.
- Rolled out Sampark Smart Shala™ program in 12,538 schools in 13 districts.
- Trained one teacher per school, each in English.
- Distributed Sampark Smart Shala™ English and Math kits.
- Provided the technology and platform to ensure monitoring.
- Developed new programs based on state requirements.
- Monitored 10% of the schools through Sparks and share monthly dashboards at District and State Level.
- Conducted and reported annual third-party evaluations.

## State's Responsibilities

- Arranged teacher trainings for SSS for all teachers.
- Printed and disseminated SSS workbooks for children.
- Monitored program through the state and other district officers.
- Made SSS a part of the state dashboards at all administrative levels.
- Reviewed Progress and provided direction at all levels.
- Integrated SSS pedagogy in the state education framework.

## 2. Provided 47,528 Manipulatives

Impact – Teaching became easy and learning easier!

# Provided - Innovations to Improve Classroom Transactions

---

At the core of our design thinking approach is an assumption that if we can get a child excited about learning, nothing can stop her from getting to where she wants to go, irrespective of all the constraints she might face on the way. Hence, we provided children and teachers in Uttarakhand with innovative learning and teaching materials developed by Sampark's Innovation Lab.

Over these 7 years, Samagra Shiksha/Sarva Shiksha Abhiyan and Sampark provided teachers with various innovations to impact and enhance learning outcomes. These frugal innovations included foundational literacy and numeracy (FLN) Kits for English and Math to engage and inspire children to become the best version of themselves. The Sampark Smart Shala learning material is aligned with the SCERT curriculum and is based on the latest NIPUN guidelines of NEP 2020.

**Provided 47,528  
English and Math FLN  
Kits in the state**

# Provided Innovative Manipulatives

## 1 Math FLN Kit

Under this program, with Samagra Shiksha/Sarva Shiksha Abhiyan's support, we introduced the innovative Sampark Smart Shala Math FLN Kits in all the 12,538 schools to help teachers teach Math in the right way. The Math Sampark Smart Shala Kits included innovative Teaching Learning Materials, puzzles, counting beads, and board games – specially designed to work in rural classrooms and help explain concepts in linear steps: from simple to complex and concrete to abstract.

These engaging, colourful, and attractive manipulatives has helped 67,774 teachers in explaining the concepts to 7.7 lakh children in 13 districts of Uttarakhand.

# Provided Innovative Manipulatives

## 2 English FLN Kit

Next, with Samagra Shiksha/Sarva Shiksha Abhiyan's support, we introduced the English FLN Kit in all 12,538 schools to help teachers teach English through Listening and Speaking before Reading and Writing. The English Sampark Smart Shala Kits included innovative Teaching Learning Materials, flash cards, theme calendar, letters, puzzles, and an audio box with a voice mascot called Sampark Didi, who brought the class to life with songs and music to make learning a joyful experience.

These engaging, colourful, and attractive manipulatives has helped 67,774 teachers in explaining the concepts to 7.7 lakh children in 13 districts of Uttarakhand.

What is quite interesting is that the methodology adopted and executed by Sampark Foundation in 2014-15 was finally accepted by the central government's ministry of education in the form of the NIPUN Bharat, FLN (Foundation Literacy and Numeracy) Mission in 2021 which points to the fact that our journey was on the right track and our thinking in this critical issue was way ahead of its time.

### 3. Tech-enabled teachers and children

Impact – Teachers now know  
WHAT, WHEN and HOW to teach!

# Tech-enabled teachers with frugal innovation

In the Third Step, we tech-enabled 17,374 teachers with the Sampark Smart Shala Mobile App – which is a one-stop solution for exchanging ideas, sharing innovations, teaching with rhymes, stories, and many more interactive tools all mapped to the state syllabus.

The idea behind tech-enabling children and teachers was to uplift both – the **Giver (Teacher)** and **Receiver (Children)** whilst encouraging learning as an integral part of individual growth. Also, so that one teacher can effectively teach more children and no child is left behind.

The tech-enablement provided by Sampark is not a stand-alone intervention and is an integral part of the full learning cycle that integrated physical and digital pedagogy seamlessly. The focus is on learning personalized, self-paced learning experience. In Uttarakhand, under the Samagra Shiksha/Sarva Shiksha Abhiyan and Sampark program, 17,374 teachers are using the Sampark Smart Shala App.

Three important elements that tech-enabled teachers, children and even parents in Uttarakhand are Sampark Smart Shala App, Gamified Assessment and Speak English Program.

**Tech-enabled  
17,374 Teachers  
to use frugal  
innovations to  
improve learning  
outcomes**

# Tech-enabled with Frugal Innovations

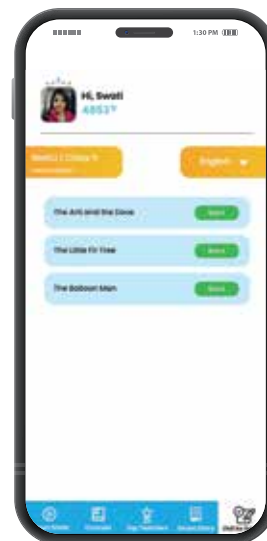

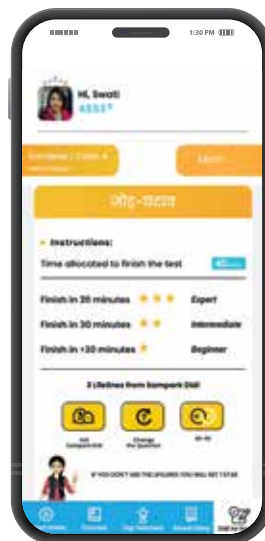

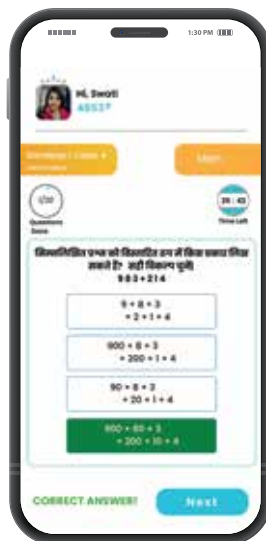

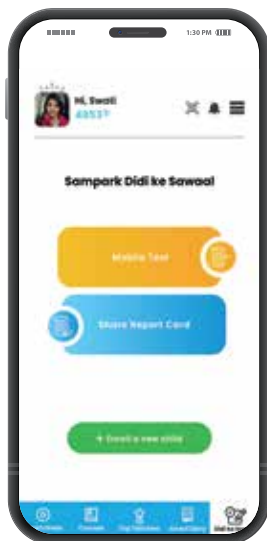

## 1 Sampark Smart Shala™ App

This mobile application is one of India's largest learning and development platform for primary government school teachers and children, which works without the internet and has thousands of teaching resources – subject-wise videos, puzzles, rhymes, riddles, worksheets, all mapped to the State curriculum. Available on the Google Play Store, Sampark Smart Shala is a free learning platform with over 5,372 active super users in the state. The app was designed and developed to make learning fun and interactive for children.

All teachers, who have been trained, now have the mobile application on their phone.

# Tech-enabled with Frugal Innovations

## 2 Sampark Didi Ke Sawal: The Gamified Assessment

To make assessment experiential, learner-centred, flexible, and enjoyable, we have designed and developed a first-of-its-kind AI-based gamified test module that not only tests the child's learning but also delivers graphical analytics to the teacher on their mobile – enabling the teachers to track the learning journey of each child under their tutelage.

This fun-filled exercise is a response to the NEP's emphasis on treating assessment as a learning enabler rather than an evaluation that instils fear.

# Tech-enabled with Frugal Innovations

## 3 Speak English

Sampark Foundation, with Samagra Shiksha/Sarva Shiksha Abhiyan's support, has introduced another innovative intervention in the domain of language literacy as it encourages active learning of English language among children, parents and teachers.

We have made this easier with our Speak English program by first converting the state board's English textbooks into interactive talking books to help develop listening and comprehension skills. This AI-driven feature enables the child to correct their pronunciation of English words by recording it in their own voice and obtaining instant scores.

We have followed the LSRW (Learn, Speak, Read, and Write) approach and leveraged children's most favourite mascot – Sampark Didi to make learning more fun.

## 4. Trained 67,774 Teachers

Impact - Main bhi Sampark Didi  
Teachers energized to act and teach  
like Sampark Didi

# Trained Teachers

Learning outcomes depend on the interface of the teacher and the child in what we call the 'learning zone'. The person most responsible for making learning happen is the schoolteacher. Thus, by putting Teachers First in everything we do, we could help them own and drive the change and claim credit for any improvement. Teachers first is an outcome of our design thinking methodology focuses on enabling teachers to teach in the best possible manner in the classroom, that is ignite the 'learning zone' to make learning fun, engaging and impactful.

In our fourth step in the model of change, Samagra Shiksha/Sarva Shiksha Abhiyan and Sampark trained 67,774 teachers in Uttarakhand with a unique and interactive methodology that enabled teachers to understand how to deliver each concept using manipulatives in the classroom.

**Trained 67,774 in the last  
7 years to engage children  
in effective learning**

# Trained Teachers

---

Master trainers (appointed by the state governments) and Sampark Sparks trained teachers at the start of each academic year to ensure that the program is well understood and owned by teachers. Across all the schools, teachers who teach grades 1 to 5 have been trained in the interactive, activity-based pedagogy. A two-day mandatory training was combined with state training programs. Additionally, digital training and e-learning modules were provided to the teachers. The training was also provided to BRCs/CRCs.

The training covered all early grade English concepts and introduced the teachers to the philosophy, methodology and use of Sampark TLMs. Refresher training was also conducted regularly with a peer-to-peer problem solving approach.

During the pandemic, multiple online training sessions were also conducted to train and enable 67,774 teachers to leverage the learning resources in our Sampark Smart Shala App as well as our TLMs. The training and video lessons available on the app enabled the teachers to use multiple approaches to explain concepts to the children, and also prepare and plan in advance the syllabus of upcoming classes.

## 5. Monitored Schools and Learning Outcomes among 7.7 Lakh Children

Impact – Motivation through reward and recognition of teachers, schools, and blocks.

# Monitored schools and learning outcomes

In the Fifth Step, we monitored learning outcomes in the school children of the 13 Districts of Uttarakhand. We leveraged the existing education infrastructure and personnel and incorporated regular monitoring of schools by nodal persons and on-site support made available by Sparks (Sampark personnel on ground) to teachers.

Basis the monitoring data, regular meetings took place between Sampark and State/District representatives to monitor and take corrective action to ensure the success of the program. Monthly performance reports were sent to School administrators via the Sampark Smart Shala app.

## Summary: Learning Outcomes Impact in Uttarakhand

## Independent Assessment by Feedback Advisory (Uttarakhand) 2022

Since 2015, Sampark Foundation with the continuous support from Samagra Shiksha/Sarva Shiksha Abhiyan, Government of Uttarakhand has been designing and delivering frugal innovations in the state of Uttarakhand which are relevant to the policies and priorities of the country – especially the National Education Policy 2020 and Samagra Shiksha Abhiyan.

The independent assessment by Feedback Advisory suggests that the impactful partnership between the foundations has improved the overall performance of students studying in Uttarakhand from 48.2% to 68.7%:

### Overall Performance (Uttarakhand)

Furthermore, the study also suggests that there was an overall improvement in the performance of students in Class 3 from 48.2% to 67.2%.

### Overall Performance of Class 3 (Uttarakhand)

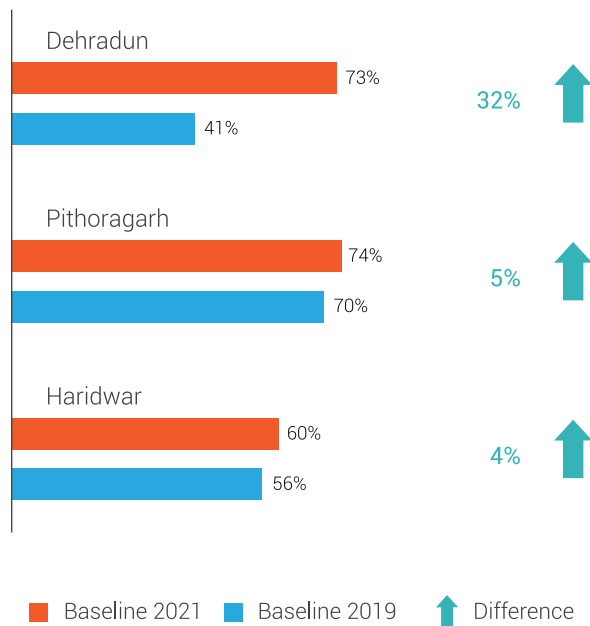

■ Baseline ■ Endline

## Independent Assessment by Feedback Advisory (Uttarakhand) 2022

The Feedback Advisory assessment conducted in Uttarakhand indicates that Dehradun, Pithoragarh and Haridwar are among the top performing districts with an overall improved learning outcomes of 32.5%, 4.7% and 3.7% respectively.

\*Due to the pandemic, the baseline could not be conducted in 2020 and hence the baseline for this study is taken from the survey conducted in 2019.

## Third Party Impact Assessment

# Learning Outcomes Assessment Report

Uttarakhand State  
2021-22

# Feedback Advisory (Third Party Impact Assessment)

## Overall Summary – Uttarakhand

- Around 30% of students were not able to give the correct answers for both the subjects.
- Around 20% of students of Class 5 couldn't complete the Grade-3 level questions, while in Class 4 around 30% of students couldn't answer the same.
- The top-performing districts of Pithoragarh and Dehradun also had around 26% of students, who were not able to provide the correct answers for the assessment test.
- Dehradun has seen the highest growth rate of 33% as compared to the Baseline 2019 average, however had around 27% students who were not able to give the correct answers for both the subjects.
- Phonic Sounds has been the highest-scoring competency at 86% for English.
- Measurement was the highest scoring competency overall (87%), while it has seen the lowest growth of 8% as compared to the 2019 average scores.
- Sentences (48%) has been the lowest-scoring competencies, with 52% of students not able to answer the related questions.
- Time has been the lowest-scoring competency of Math, with 47% of students not able to provide the correct answers.

## Key Learning Outcome

Overall, more than 30% of students were not able to answer the assessment tests of the Grade-3 level tool.

### Coverage:

- 3 districts & 5 blocks covered in Uttarakhand
- Students from 30+ schools participated in the tests from Class 2-5
- Students studying from home through online classes
- 600+ students' tests conducted through home assessment in July
- Class 3 assessment tool was used for Class 2, 3, 4, & 5

### Average Performance by Class (%)

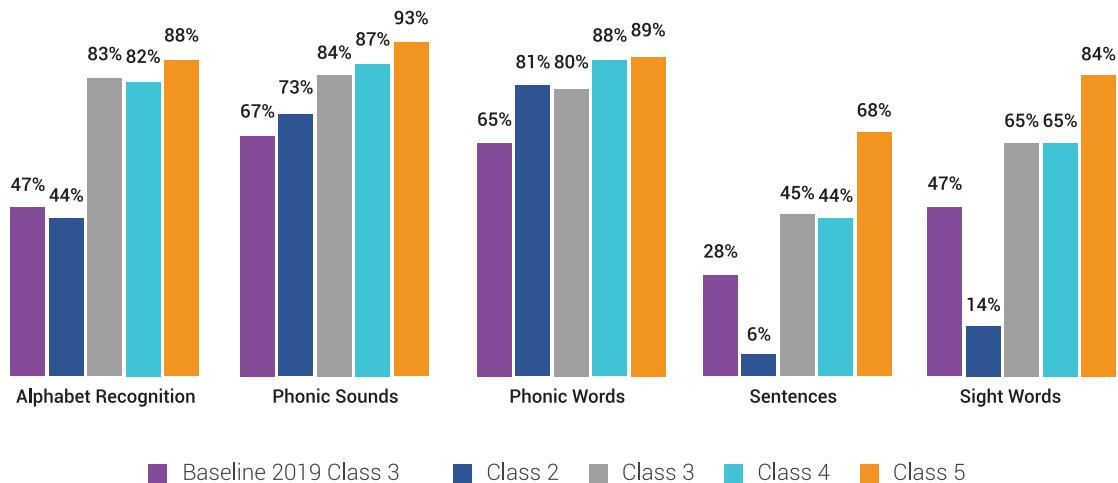

## Key Findings

- Overall, the highest scorer Class 5 had around 20% of students who couldn't solve Class 3 Math & English papers.
- Around 30% of Class 4 students couldn't score in the Grade-3 level exams, making the class performance similar to the Class 3 grading scores of 2019.
- Except Class 2, all classes have shown the overall performance above the baseline average of 2019.
- Class 3 performances have shown a growth of 16% as compared to the same-grade performances of 2019.

## English Competencies:

In a like-to-like comparison, Class 3 performances have increased for all competencies.

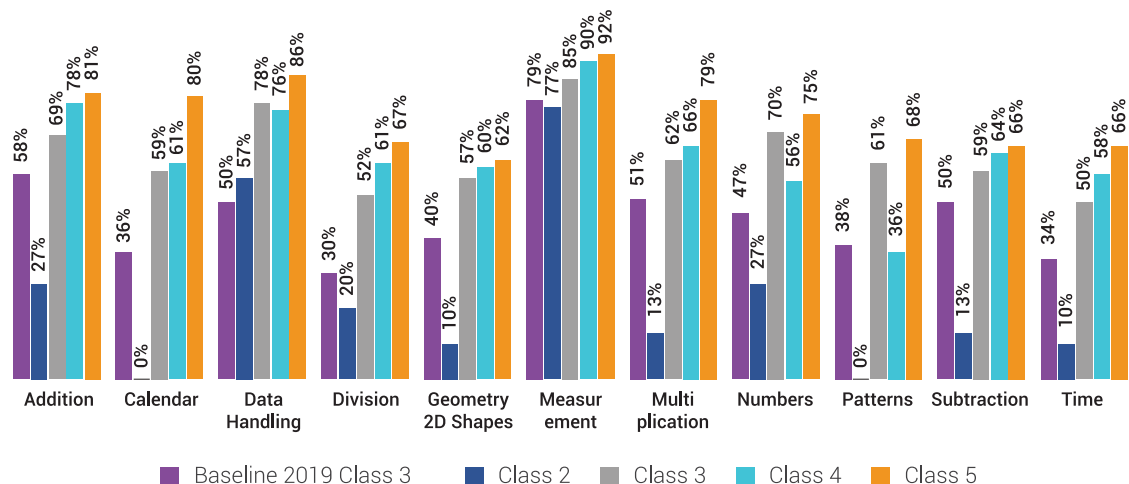

Baseline 2021

- For Class 5, 30% of students couldn't give the right answers for the Sentences questions of Grade-3 level.
- Around 55% of Class 4 students were not able to answer the Sentences questions, while more than 80% could answer for competencies such as Alphabet Recognition, Phonic Words & Phonic Sounds.
- In a like-to-like comparison, Class 3 performances have increased for all competencies, with Alphabet Recognition seeing the highest growth of 37% as compared to the Baseline 2019 score. However, overall 30% of students couldn't give the correct answers for the English subject.
- Despite the use of the Grade-3 level tool, Class 2 students of Dehradun's learning level of Phonic Words have obtained the overall highest score in English

## Math Competencies:

Measurement has been the highest-scoring competency for all districts.

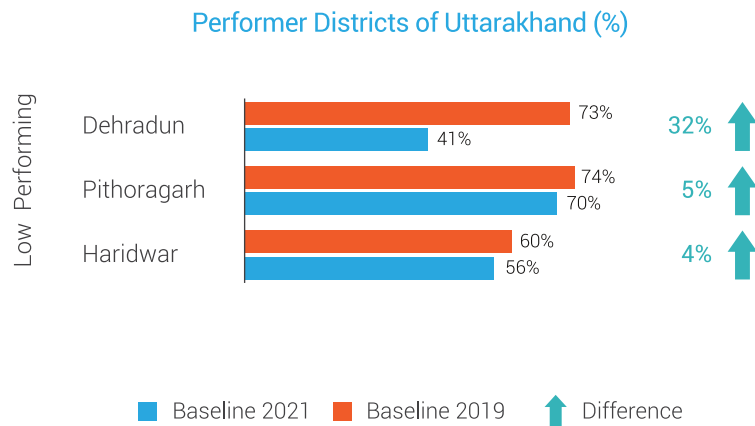

Baseline 2021

- Measurement has been the highest-scoring competency for all districts.
- Students from Class 2 of Dehradun have scored 0% in most of the competencies.
- Except Measurement, more than 20% students of Class 4 couldn't give the correct answers for all the Math competencies of Grade-3 level.
- Patterns was among the least correctly answered competency for Class 4 students, with only 36% of students giving the right answer for Grade-3 level questions.
- For Class 5, although individual competencies scores are as high as 92% (measurement), more than 30% of students couldn't answer the Grade-3 level questions related to Geometry 2D shapes, Times, Patterns and basic Maths learning of Subtraction and Division.

### District Performance:

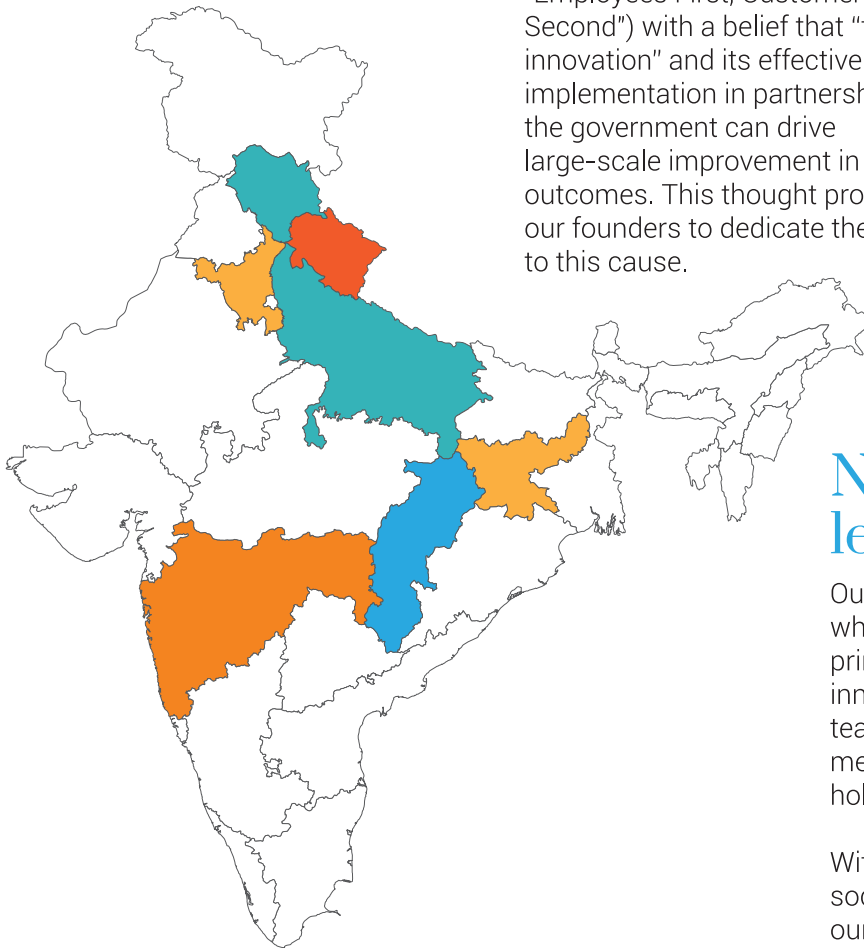

The top-performing district of Pithoragarh had around 26% of students, who were not able to provide the correct answers.

- In a like-to-like comparison of Class 3, students of Pithoragarh district have seen the growth only in 7 competencies (around 40%).
- For Haridwar Class 3, Data Handling has seen the highest growth at 33%, while Sentences has seen the highest dip at 11%.
- Class 2 students have scored 0% in Geometry 2D Shapes, Patterns, Time, & Calendar competencies.
- Also, for Class 3 Dehradun, Division has seen the highest growth of 40%, while Patterns has seen the highest dip of 1% as compared to Baseline 2019.
- Around 40% students of Class 4 Haridwar were not able to give the correct answers in both the subjects for Class 3 level questions.

# About Sampark

Sampark Foundation was founded by Anupama Nayar and Vineet Nayar (Former Vice Chairman and CEO of HCL Technologies and author of Harvard Business Press bestseller "Employees First, Customer Second") with a belief that "frugal innovation" and its effective implementation in partnership with the government can drive large-scale improvement in learning outcomes. This thought prompted our founders to dedicate their lives to this cause.

## No child left behind

Our vision is to create a world where every child receives optimal primary education through frugal innovation in the critical domain of teaching practices, tools and methodologies, thus fostering their holistic development.

With innovation-led large-scale social change as the central idea, our mission is to significantly improve the quality of education for 20 million children by 2020 across 200,000 schools in 6 states.

The change on the ground would not be possible without our Sparks, who work relentlessly with great pride and passion, and a single-minded focus on results!

"Sampark Baithak has been launched by the Haryana government with the objective of providing home-based education to primary school children during lockdown."

**Shri Manohar Lal Khattar,**  
Chief Minister,  
Haryana

"I thank Mr. Vineet Nayar for his continued support to the state. We extend all support needed to make it happen."

**Shri Trivendra Singh Rawat,**  
Former Chief Minister,  
Uttarakhand

"I am sure our young State will see significant improvement in the quality of primary education with such a strategic partnership."

**Shri Raghubar Das,**  
Former Chief Minister,  
Jharkhand

"I urge the community-oriented bodies like Sampark Foundation to adopt the eight aspirational districts of Uttar Pradesh."

**Yogi Adityanath,**  
Chief Minister,  
Uttar Pradesh

"We are grateful to Sampark Foundation for bringing Innovation to our State, that will ignite classrooms, giving teachers a new way to stimulate children to learn better."

**Shri Jairam Thakur,**  
Chief Minister,  
Himachal Pradesh

"This is a very innovative intervention that is bringing excitement back into the classroom and significantly improving learning outcomes as we saw last year."

**Dr. Raman Singh,**  
Former Chief Minister,  
Chhattisgarh
