LESSON PLANS

500+
Lesson Plans

- Lesson plans developed by experts for every textbook lesson
- Detailed notes are given on how to teach, when to teach, and the activities to conduct in classrooms to make the lesson easier to understand for children

LESSON VIDEOS

1000+
Lesson videos

- Videos based on concrete to abstract, simple to complex teaching methodology
- Examples connecting concepts to daily/real life
- Use of easy language and attractive visuals

ACTIVITIES USING TLMS

450+
Classroom Activities

- Use of English/Math kits created in scientific ways
- Classroom Activities based on "Fun with Learning" promoting engagement, conversations and support among children

WORKSHEETS

2000+
Worksheets

- Based on subject-wise competencies
- Worksheets based on concrete to abstract, simple to complex teaching methodology
- Order of questions according to difficulty level (Easy/Medium/Difficult)

ASSESSMENTS

3000+
Questions

- Based on "Kaun Banega Crorepati" format
- Order of questions according to difficulty level (Easy/Medium/Difficult)
- Reports according to Class/Students

8 Years of Partnership between Samagra Shiksha & Sampark

Solving an Unsolved problem in Uttarakhand

It was 2015, when we asked ourselves – how can we transform learning outcomes in 12,538 Government schools in Uttarakhand where 4 out of 5 children in grade 5 could not read grade 2 text and 8 out of 10 children could not solve previous grade questions despite doubling of investment in education over the last decade.

Samagra Shiksha (earlier known as Sarva Shiksha Abhiyan) and Sampark Foundation entered in a long-term strategic partnership with a belief that by leveraging design thinking we could build innovative solutions that would bring excitement back into the classroom.

This partnership led to **the beginning of a change** across the primary schools of Uttarakhand, however the road was long and hard.

Tech-enabled with Frugal Innovations

Sampark Smart Shala™ App in Uttarakhand Schools

This mobile application is one of India's largest learning and development platform for primary government school teachers and children, which works without the internet and has thousands of teaching resources – subject-wise videos, puzzles, rhymes, riddles, worksheets, all mapped to the State curriculum. Available on the Google Play Store, Sampark Smart Shala is a free learning platform with over 21,006 SSS App users in the state. The app was designed and developed to make learning fun and interactive for children.

All teachers, who have been trained, now have the mobile application on their phone.

Tech-enabled with Frugal Innovations

Sampark Didi Ke Sawal: The Gamified Assessment

To make assessment experiential, learner-centred, flexible, and enjoyable, we have designed and developed a first-of-its-kind AI-based gamified test module that not only tests the child's learning but also delivers graphical analytics to the teacher on their mobile – enabling the teachers to track the learning journey of each child under their tutelage.

This fun-filled exercise is a response to the NEP's emphasis on treating assessment as a learning enabler rather than an evaluation that instils fear.

“पढ़ना और पढ़ाना आसान है” with Speak English

Tech-enabled with Frugal Innovations

Speak English

Sampark Foundation, with **Samagra Shiksha** support, has introduced another innovative intervention in the domain of language literacy as it encourages active learning of English language among children, parents and teachers.

We have made this easier with our Speak English program by first converting the state board's English textbooks into interactive talking books to help develop listening and comprehension skills. This AI-driven feature enables the child to correct their pronunciation of English words by recording it in their own voice and obtaining instant scores.

We have followed the LSRW (Learn, Speak, Read, and Write) approach and leveraged children's most favourite mascot – Sampark Didi to make learning more fun.

Sampark Foundation was founded by **Anupama and Vineet Nayar** (Former **CEO of HCL Technologies** and Author of HBP bestseller "**Employees First Customer Second**") with a belief that "**frugal innovation**" along with relentless execution in partnership with the government, can drive large scale change.

Our 5-Step Model of Change

"We are attempting to introduce **innovations** in govt schools' classrooms so that **teaching becomes easy** and **effective** and the classroom transaction between teacher and children becomes exciting and cheerful."

Sampark Innovations

1. Sampark Smart Shala Application

2. FLN Kit

3. Sound Box

4. Sampark TV

Sampark Innovations

First, we introduced the innovative Sampark Smart Shala Math and English FLN Kits to help teachers teach math from concrete to abstract and English through Listening and Speaking before Reading and Writing. These kits included innovative manipulatives, board games and an audio box with a voice mascot called Sampark Didi, who brought the class to life with songs and music to make learning a joyful experience.

Second, we introduced Sampark Smart Shala mobile app for teachers with lesson plans, mock teaching videos and question banks mapped to State Textbooks to help teachers teach in the right sequence and in the right way. Today 2,993 teachers are on this platform viewing resources that have made teaching and learning significantly easier.

Third, based on the popular KBC format, we brought gamified AI-driven assessment called Sampark Didi Ke Sawaal to the classroom. This innovation took away the fear of exams and made assessments fun. Today over 29.25 Lakh assessments have been done post covid that formed the basis of identifying learning gaps.

The **fourth** innovation was an AI-driven Speak English program where all Uttarakhand textbooks were animated with a unique button for the child to record and test their pronunciations. This innovation had a significant impact on enhancing teachers' ability to teach English and a child's ability to speak and comprehend English.

And finally, the **fifth** innovation, we introduced this year was Sampark TV, which transforms a dumb TV into a smart classroom enabling teachers to teach and engage children through interactive learning that has energized the classroom with excitement.

Innovation Timeline

Sampark Smart Shala Math Program was introduced to help teachers teach Math from concrete to abstract.

Sampark Smart Shala English Program was introduced to help teachers teach English through Listening and Speaking before Reading and Writing.

Sampark Smart Shala Mobile App was introduced to help teachers teach in the right sequence and in the right way and make teaching and learning significantly easier.

Sampark TV was introduced to teach and engage children through interactive learning that has energized the classroom with excitement.

Speak English was introduced to encourage active learning of English language and help develop listening & comprehension skills among children, parents and teachers.

Gamified Assessment was introduced to take away a child's fear of exams and make assessments fun. The AI-based assessment module also helped identify learning gaps.

Sampark Innovations

All these 5 innovations were wrapped around extensive teacher training at every block level and monitoring at the school level by our Sparks.

We have touched lives of 8.45 Lakh children and will continue exploring new ideas, innovations, and new ways to ensure that no child is ever left behind – because we all at **Samagra Shiksha** and Sampark Foundation care!

Impact Created since 2015 by **Samagra Shiksha** & Sampark:

Sampark Smartshala is an initiative to promote education in the state of Uttarakhand through modern technology; The initiative holds much importance for the sons and daughters living in remote villages and areas of the state.

Pushkar Singh Dhami,
Chief Minister, Uttarakhand

"I urge the community-oriented bodies like Sampark Foundation to adopt the eight aspirational districts of Uttar Pradesh."

Yogi Adityanath,
Chief Minister,
Uttar Pradesh

"Sampark Baithak has been launched by the Haryana government with the objective of providing home-based education to primary school children during lockdown."

Shri Manohar Lal Khattar,
Chief Minister,
Haryana

"We are grateful to Sampark Foundation for bringing Innovation to our State, that will ignite classrooms, giving teachers a new way to stimulate children to learn better."

Shri Jairam Thakur,
Chief Minister,
Himachal Pradesh

"I am sure our young State will see significant improvement in the quality of primary education with such a strategic partnership."

Shri Raghubar Das,
Former Chief Minister,
Jharkhand

"This is a very innovative intervention that is bringing excitement back into the classroom and significantly improving learning outcomes as we saw last year."

Dr. Raman Singh,
Former Chief Minister,
Chhattisgarh
